We believe that the basis of building long-lasting, trusting relationships with our stakeholders is based on working towards a more sustainable operation, ongoing improvement in our performance, and maintaining responsible growth.

Core values and ethics have been the foundation of both companies that comprise Alpek Polyester: Safety, Integrity, Respect, Commitment.

---

### Corporate Profile

Alpek Polyester is a company that is part of the ALFA Group. Our corporate offices are located in San Pedro Garza García, in the City of Monterrey and in the Cdmx.

We are one of the largest producers of Purified Terephthalic Acid (PTA) worldwide, and the first in Latin America. We are also leaders in the commercialization of Polyethylene Terephthalate (PET) and Polyester Fiber in the same region.

OUR SUSTAINABILITY VISION AND STRATEGY

As Alpek Polyester, we integrated DAK Americas' and Petrotemex’s sustainability visions, in order to strengthen and develop an even more robust one for the company.

The pillars of our Sustainability Model are aligned with the values that define our present actions as a company and focus us on the future.

ENVIRONMENT

- Through several actions aimed at the optimization of water use, we achieved a 20% reduction in the consumption of this resource.
- We invested more than US$28 million on environmental actions including emissions reduction programs, prevention initiatives and environmental management.
- 58% of non-hazardous waste was not sent to landfills; instead it was recycled or reclaimed for energy.
- We have reduced our emissions by 28% since 2013.
- Our cogeneration plant increased its steam production by 18%. This is equivalent to the energy needed to meet the energy needs of 2,772 Mexican households.

COMMUNITY

- More than 10,000 students benefited from support given by the company to 61 nearby schools.
- 125 students either carried out or finished their internships in our facilities.
- 500 people from 6 charities benefited from support given by the company.
- Through our Vive Verde program and the event to free 100 Lora Turtles in the port of Altamira, we strengthened our community engagement.

EMPLOYEES

- 115 employees were granted scholarships to improve their work competencies.
- More than 100 programs and actions on specific training.
- 351 employees’ children were granted with scholarships and educational support.
- In 2017 we invested more than US $16.8 million on employee health and safety programs, equipment and actions.
- We had some areas with more than 20 years with no recordable incidents.

VALUE CHAIN

- We offer products manufactured with recycled origin raw materials.
- We increased the quality and transparency of our processes for our clients by participating in several surveys through Alpek, such as The Carbon Disclosure Project and RobecoSAM.
- 78% of our suppliers were assessed on social and labor practices, as well as environmental criteria.
- 77% of our suppliers are from the communities where we operate in.

RESPONSIBLE GROWTH THROUGH A SUSTAINABLE ECONOMY

- In 2017 we integrated the experience of two companies, Petrotemex and DAK Americas, to build a stronger one: Alpek Polyester.
- We make investment and business decisions with sustainability in mind for every project.
